

Deep Vein Thrombosis - Low Risk Case (score \leq 0)

"Near Live" Usability Testing

History (Standardized patient):

Provider: "Hi, what brings you in today?"

Patient: "I have throbbing pain in my right calf. About five weeks ago, I had an arthroscopy performed to help with my knee pain. I was walking the next day with no issue.

But about 3 days ago I started to have pain in my right leg that has lasted until today. I really hope it's nothing too serious.

What do you think this could be?"

Physical Exam (Provided in written form):
